

Cue TV: City Talkback
April 2009 questions and responses

Lindisfarne Street

Jerrye said he had nearly been knocked off his bike in Lindisfarne Street when a car swerved to miss a pothole. He asked what the Council was doing about potholes in the area.

Reply by Tom Greenwood, ICC Manager Roading and Solid Waste:

The maintenance contractor has been tasked with repair of the pothole. Please report any observed potholes or problems direct to the Council by phone (211 1777) or [through this website](#) so that timely action can be taken.

Broken Verandah Pole

Ross complained about a broken verandah pole at what used to be Maud's Fabric Barn in Yarrow Street. The Councillors said it would be reported to staff who would find the landlord and follow it up.

Reply by Tom Greenwood, ICC Manager Roading and Solid Waste:

This has been followed up and repairs are in hand.

Civic Theatre

Daisy asked if the Civic Theatre was losing money heavily and, if so, wondered if it was because the continental seating in the theatre was putting people off attending?

Reply by Stephen Ridden, ICC Manager Corporate Services.

The Civic Theatre is not losing money heavily and is operating within 2008-2009 income and expenditure budgets. The continental seating has not been raised as an issue by patrons to the best of my knowledge.

Stadium Southland

A caller asked: What is planned for Stadium Southland?

Reply by Dean Johnston, the Council's Director of Finance and Corporate Services:

The Southland Indoor Leisure Centre Charitable Trust has asked Council to increase its annual funding by \$350,000 per annum. This request has been included in Council's Draft 10-Year Plan which is currently out for public consultation.
